PRESS RELEASE For immediate use

Strategic Collaboration for Quantum-Safe cryptography between Valiant Communications Limited & Fortytwo42 Labs

13-03-2026

Pursuant to Valiant Communications and Fortytwo42 Technology cooperation for Quantum-Safe cryptography products, the two companies have agreed to enter into a Strategic Collaboration Agreement for integrating, and marketing of respective Quantum-Safe cryptography applications with Valiant's NAS/SAN data storage, cyber-security solutions to domestic and international customers.

The focus of the agreement will be for implementing hardware-based Quantum-Safe Network Attached Storage (NAS), Storage Area Network (SAN) Data Storage Servers and Authentication Server solutions.

Fortytwo42 Labs (Fortytwo42 Technology Innovations Pvt Ltd) is a deep tech start-up pioneer headquartered in Pune, having built India's first Quantum Safe Digital Trust Cybersecurity Platform with expertise in Post Quantum Cryptography serving Defence, Govt., Banks and National Critical Infra and Niche Enterprises protecting Digital Operations from advanced current age threats and future proofing against quantum threats.

Valiant Communications Limited is a globally recognized Indian technology company specializing in communications, networking, protection, synchronization, NAS/SAN data storage, and cybersecurity solutions for Critical Infrastructure Industries (CII) infrastructure. Headquartered in New Delhi and listed on the BSE, the company designs and manufactures advanced IT and Operational Technology (OT) products that support sectors such as power utilities, oil & gas, railways, airports, defence, financial services, and government networks. With installations in over 110 countries, Valiant has established itself as a trusted technology solutions provider.
